How Do I Know If I Can Play Country X's Lottery?

Well, for the majority of international lotteries, you can play their lottery as long as your own country allows for it. You will want to check with your own county lottery commission to see their particular laws and stipulations when it comes to international lotteries. How the Hell Can I Increase My Chances of Winning?

Play it smart, play syndicates! That's one of the reasons syndicates online have become so popular. Most online lottery providers offer a set amount of entries with a specific number of members. The biggest thing is to look at the amount of tickets versus the amount of people that any winnings will be shared.

Wintrillions.com is one amazing site that offers a whole bunch of syndicates including the big jackpots down to EuroMillions Mini (though it's not that mini!). For US Powerball, they offer a lottery syndicate of 80 tickets for the cost of one with 250 shares.

How Do I Pay for Lottery Tickets?

When you've chosen your numbers, you're going to have to pay. How each of these sites handles their payment options may vary slightly. Most times, you will be able to use your CREDIT CARD (don't worry, the sites are encrypted and are secured). Some sites will allow you to use other payment methods such as PayPal, WebMoney, BitCoin, and others. You will want to check with the site to see how exactly the site accepts payment.

If I Live in Another Country, How Do I Collect My Winnings?

In the incredible chance that is a winner from one of these lotteries, it's only natural that you will want to know how you'll collect your winnings. Usually, if you are joining a third person retailer site like the aforementioned sites, you will be required to sign up for an account—these are free for the most part. We have yet to run into a site that charges a membership fee. When you win, your winnings will be transferred to your account within 24 hours of the official announcement of the winning lottery numbers.

From here, you can withdraw the payment to your selected payment method or you can just leave the winnings in your account and use that money for future lottery tickets.

When it comes to jackpots, each site has their own policy. Most sites will require that you go to their office in person to collect the large sum of money. You will want to check with your home country's policies on how they handle foreign lottery winnings. This can be done by contacting the lottery commission and/or tax offices.
